Rev. W. E. d'Happart of Yale, and Roe Nichols of Cushing, were at Wilson yesterday and closed a deal with the Wilson people to put in a refinery there that will begin with a capacity of 1600 barrels. The

**Do You Know That—**  
The constitution of the United States doesn't mention health? Procrastination in sanitary reform is the thief of health? A book on "Exercise and Health" may be had free for the asking from the U. S. Public Health Service? Not everybody can achieve greatness but everybody can be clean? If you sow a hygienic habit you reap health—reap health and you attain longevity? Railway cars would be sanitary if it weren't for the people in them? America's typhoid fever bill is more than \$270,000,000 a year? The full dinner pail is the enemy of tuberculosis?

**NOTICE TO THE PUBLIC.**
